

**Enabling secure
remote work**

**Microsoft Teams, Office apps, Secure remote
access, & Desktop virtualization**

Stay productive working from home

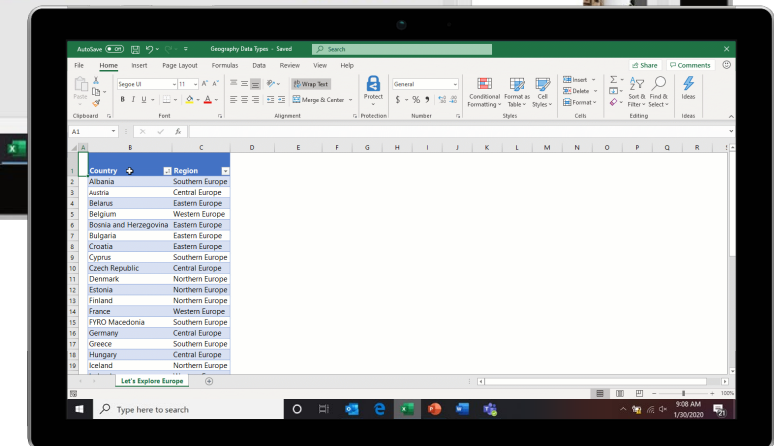

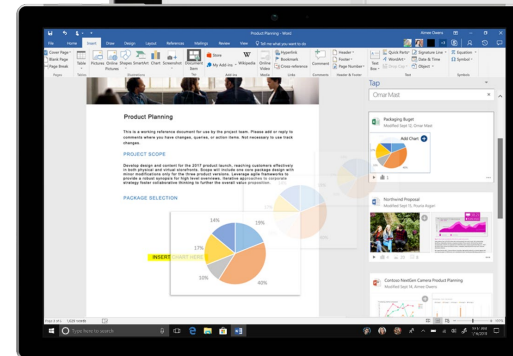

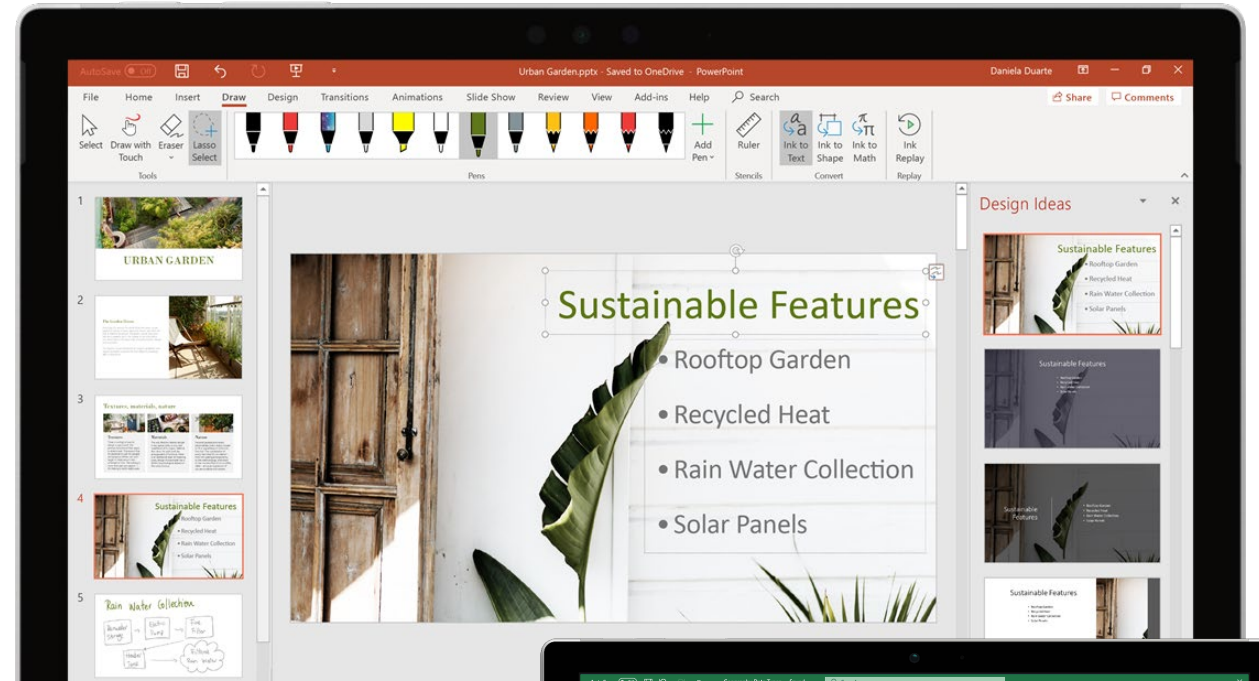

Simple, four-step process to self-install on a home device with the same level of protection and security

User-based license allows for:

- Installs on up to 5 PCs + 5 tablets + 5 phones per user
- Access to your files from anywhere with 1TB cloud storage
- Real-time collaboration with colleagues in the apps

Exclusive access to advanced cloud-backed capabilities that help you stay focused on the important stuff

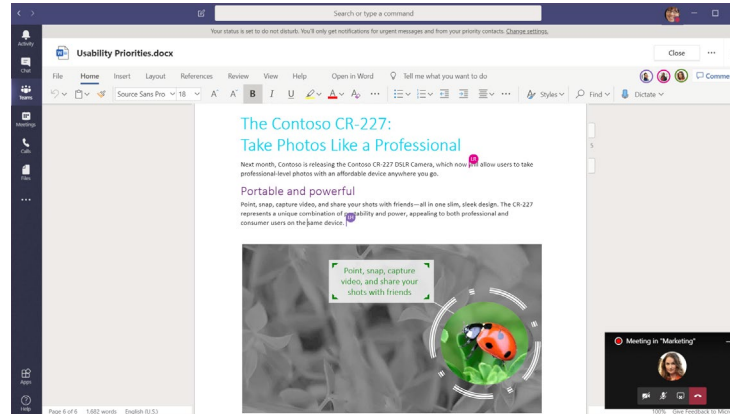

PowerPoint Designer, Tap in Word, and Excel Data Types through the desktop apps

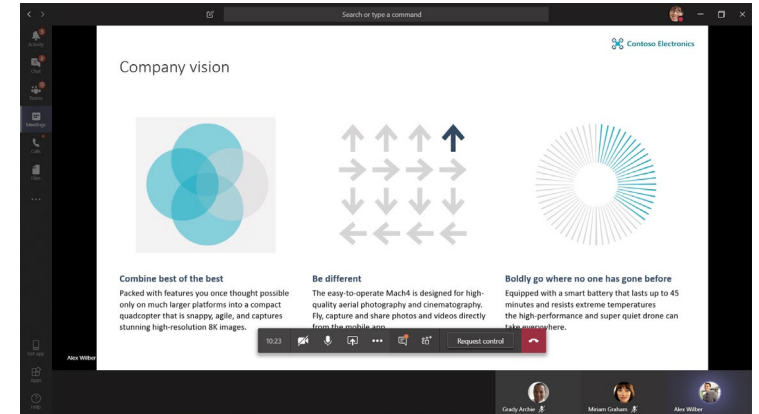

Participate in interactive online meetings with video and chat

Have a conversation with a colleague or customer

Hold a team update or brainstorming session

Deliver a training workshop

Microsoft Teams Meetings

Connect & communicate with people inside and outside your organization

- Meet with up to 250 internal & external participants
- Chat and share screens, files, and webcams
- Collaborate in real-time on documents & whiteboards
- Blur or customize your background, & suppress noise*
- Play back meeting recordings and search transcripts

- Join your meeting from PC, Mac, web, or mobile devices
- Define presenter and attendee roles
- Dial in with Audio Conferencing when needed
- Follow along with Live Captions
- Enterprise grade security, compliance & management

* Feature coming soon

Windows Virtual Desktop

The best virtual desktop experience,
delivered on Azure

- + Deliver the only multi-session Windows 10 experience
- + Enable optimizations for Office 365 ProPlus
- + Migrate Windows Server (RDS) desktops and apps
- + Deploy and scale in minutes
- + [Learn More](#)

Windows Virtual Desktop infrastructure & management

Utilizes Azure Active Directory identity and access management service

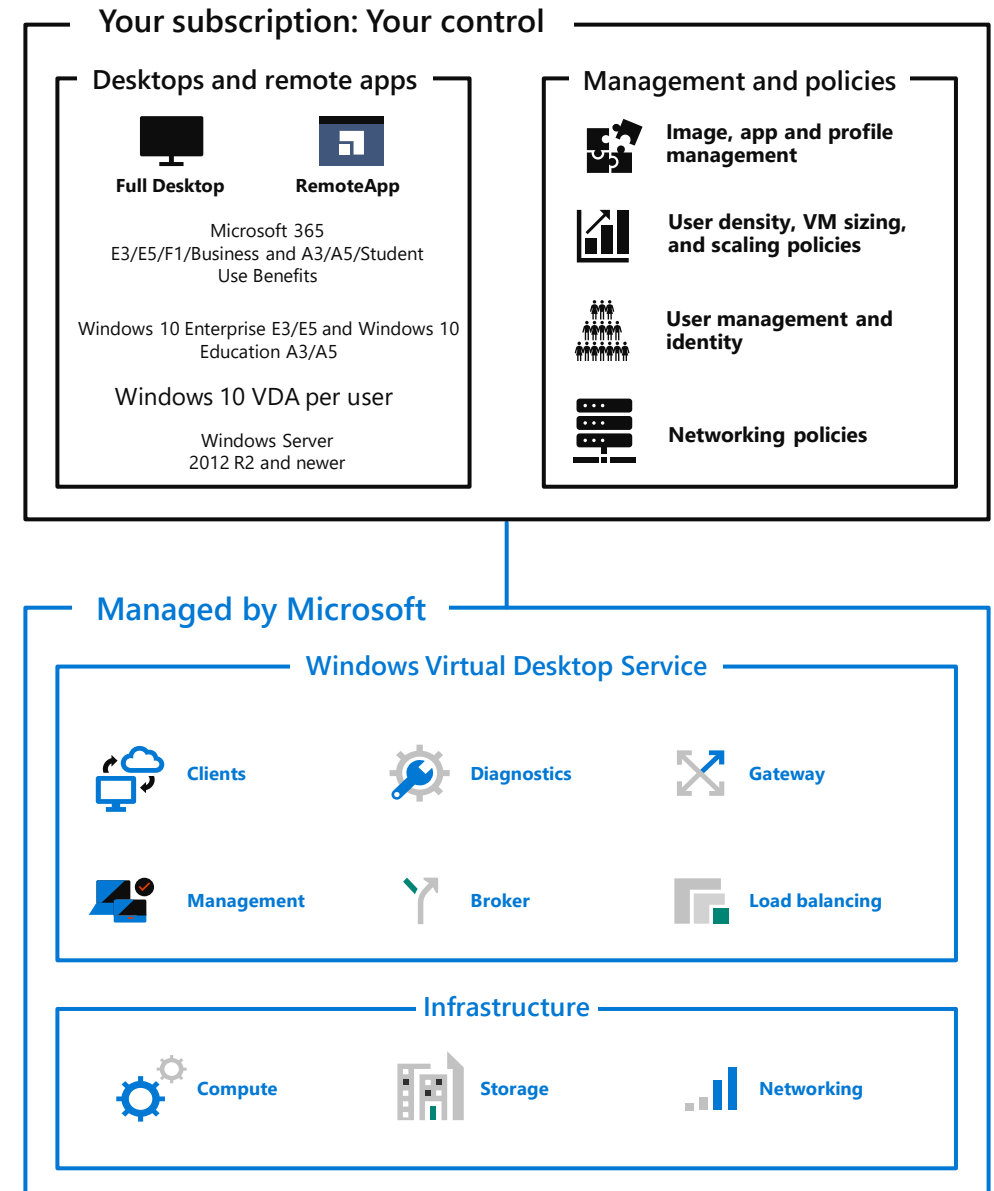

Provides virtualization infrastructure as a managed service

Deploy and manage VMs in Azure subscription

Manage using existing tools like Configuration Manager or Microsoft Intune

Simply connect to on-premises resources

Connect from any device of your choice (Windows, MacOS/iOS, HTML5, Android, Linux)

Next generation cyber-security protection

- Protect against all types of emerging threats

Client  → Cloud 

Protection in milliseconds

Most common malware are blocked by high-precision detection in Windows Defender AV

Protection in milliseconds

ML-powered cloud rules evaluate suspicious files based on metadata sent by the Windows Defender AV client during query and make a determination

Protection in seconds

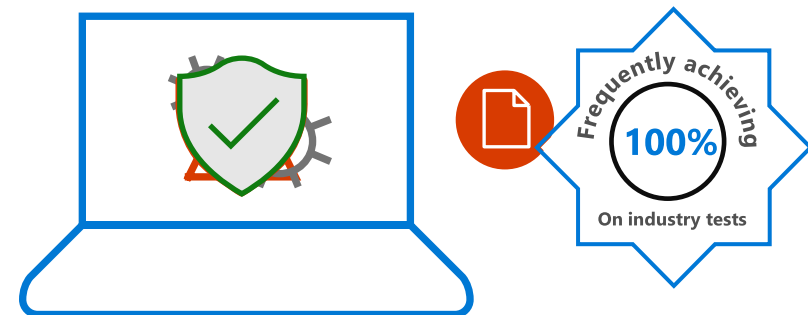

If needed a copy of the suspicious file is uploaded for inspection by multi-class ML classifiers

Protection in minutes

If additional checking is required the suspicious file is executed in a sandbox for dynamic analysis by multi-class ML classifiers

Protection in hours

The most advanced and innovative samples can be further checked against ML models and expert rules using correlated signals from a vast network of sensors to automatically classify threats

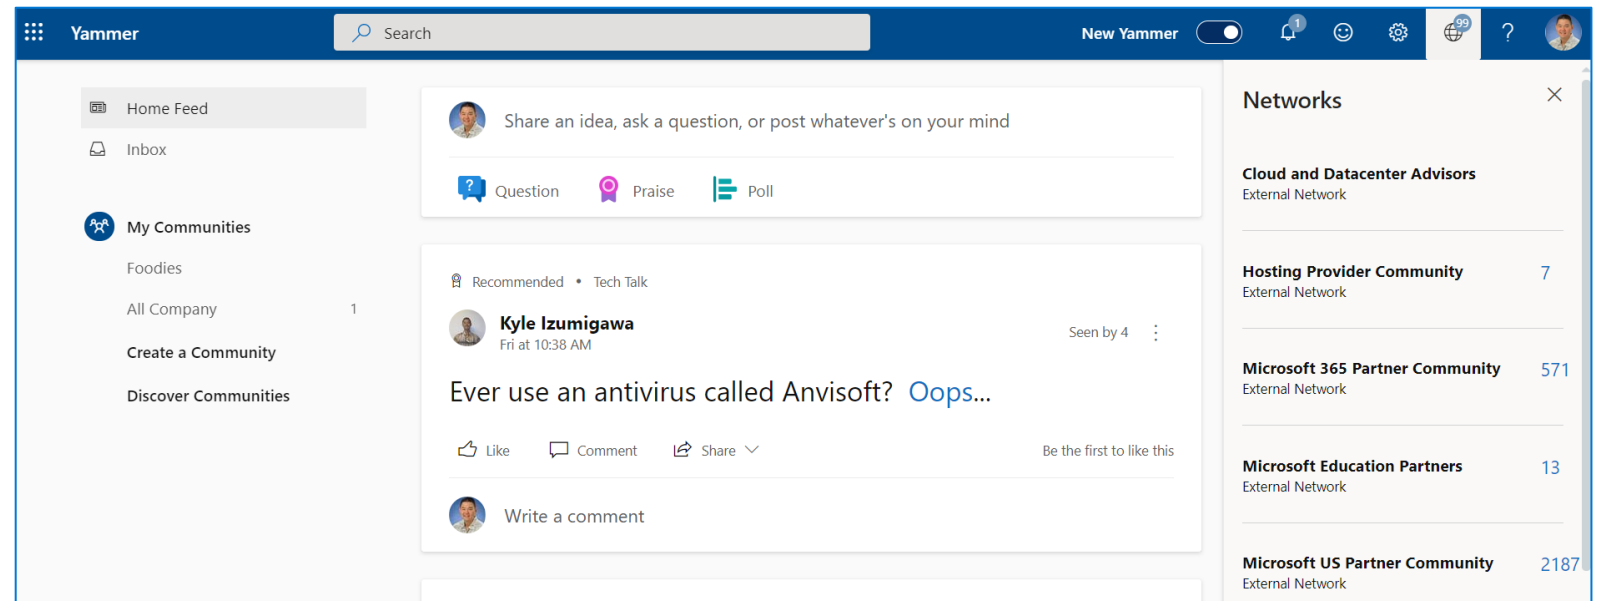

Microsoft 365 Highlight – Social Networking in the Enterprise

Yammer: The Enterprise Social Network

Easy. Shared. Searchable. Real-Time. Where your company's knowledge lives

- Direct Messaging and Feeds
- User Profiles
- Company Directories
- Groups (Internal and External)
- Communities
- Supported on all platforms

Thank you

Azure Migration Program engagement model

Pacxa and Microsoft helps accelerate opportunities working hand-in-hand with specialized migration partners to migrate initial workloads. The partner continues to build on momentum and takes the lead to migrate the remaining estate and attach higher value services once the AMP engagement is complete.

SIGN UP

Get aligned with the best path for your migration journey within a week of your application.

KICK-OFF

Start your journey with access to the resources, tools, incentives, and partners needed to start your migration.

SKILL UP

Plan your migration with confidence and transition with Microsoft's best practices, technical training, and support from specialized migration partners.

DIVE IN

Move your migration into high gear with proven process and tools, while being assisted by FastTrack for Azure engineering to support and streamline migration prep.

SPEED UP

Receive continued support to complete your journey to the cloud from your migration partner and/or Microsoft resources.

Nomination submitted directly by **Azure customer**, Microsoft account team, or partner

Global Program Management Office
Request migration project alignment/triaging

AMP resource assignment
Based on the size and complexity of your migration you'll receive some or all of the following:

- Migration partner matching
- Free migration tools
- Best practices guidance
- Technical Skilling
- Kick off workshop (w/TCO)
- Azure Credits to reduce your migration costs
- FastTrack for Azure assistance

Digital Experience
Prep for migration with a chosen partner or DIY with MS Learn courses and best practice email guidance

Direct Technical Assistance
FastTrack for Azure, technical skilling, and a dedicated partner to streamline migration prep

Design/Build "landing zone"

Begin migration

Ongoing partner support
Receive continued support from an Azure Expert MSP or Advanced Specialization Partner or Microsoft Services

Continue migrating rest of estate

Modernize and optimize applications

AMP led phases
